

Mostafa Meerzad

Full Stack Developer

+93 790 306 378 · mostafameerzad@gmail.com · [LinkedIn](#) · github.com/mostafa-mz-code · mostafa-meerzad.vercel.app · Kabul, Afghanistan

SUMMARY

Self-taught full-stack developer with 4+ years of hands-on experience building production-grade web and mobile applications. Currently shipping client software at Webistan.cloud. Specialises in the JS/TS ecosystem — MERN, PERN, Next.js, and React Native. Product-minded: cares about reliable functionality and polished UI equally. Open to remote roles worldwide and onsite opportunities in Kabul.

EXPERIENCE

Full Stack Developer

[Webistan.cloud](#) · Kabul, Afghanistan · Oct 2024 – Present

- Part of a dev team building custom software for clients, collaborating with a dedicated Figma design team.
- **POS System** — Built the full backend (and contributed to frontend UI/UX) of a multi-branch point-of-sale platform for a local pet supplies business. Manages sales, inventory, customers, suppliers, deliveries, and unlimited branch operations. Live across 3 branches. Stack: Next.js · TypeScript · MySQL · Prisma · Zustand · ShadCN · Tailwind · Framer Motion.
- **SheReads** — Built the complete frontend and admin panel for an online reading platform serving users globally. Features book discovery, preference-based recommendations, search, filtering, and full content management. Live at shereadsapp.com. Stack: Next.js · TypeScript · MySQL · Prisma · ShadCN · Tailwind · Framer Motion.

Full Stack Intern

Coding Samurai · Remote · Mar 2025 – Apr 2025

- Built Chatty — a real-time chat application using the MERN stack with Socket.io, JWT authentication, and a responsive UI focused on scalability and security.
-

SELECTED PROJECTS

Movie-Flex

React Native · Expo · TypeScript · NativeWind · TMDB API · [GitHub](#)

First mobile app — a movie discovery platform with search, trailers, trending movies, and AI-powered personalised recommendations using the TMDB API.

Promptopia

Next.js · TypeScript · PostgreSQL · Prisma · Radix UI · Zustand · [Live demo](#) · [GitHub](#)

Full-stack AI prompt sharing platform. Users create, manage, and discover high-quality prompts with full authentication, CRUD operations, and a responsive explorer.

SKILLS

Frontend

React.js · Next.js · TypeScript · JavaScript · Tailwind CSS · ShadCN UI · Framer Motion · Zustand

Backend

Node.js · Express.js · Next.js API Routes · Prisma ORM · REST APIs · MySQL · PostgreSQL · MongoDB

Mobile

React Native · Expo · NativeWind

Tools

Git · GitHub · Docker · Linux CLI · Vercel · Postman · VSCode · Figma handoff
